HOPE

PHILOSOPHY

The Treatment Center was founded by a group of dedicated professionals with over 30 years of experience in the field of addiction treatment. Our Holistic approach treats the whole person: mind, body and spirit. We start by helping the person cleanse the body of harmful toxins. After comfortably and safely completing detoxification, we begin treating the addiction. We believe knowledge Restores Hope. We work on the mind by increasing the knowledge of the disease, and through specialized treatment which includes individual and group therapy. Finally, we help guide the patient to plan for a happy, healthy and sober life after treatment, allowing the spirit to be free of the bonds of addiction long into the future.
